Key Players of Canoo: Board of Directors Key Players of Canoo: Tony Aquila Key Players of Canoo: Thomas Dattilo Key Players of Canoo: James Chen Key Players of Canoo: Foster Chiang Key Players of Canoo: Deborah Diaz Key Players of Canoo: Claudia Romo Edelman Key Players of Canoo: Arthur Kingsbury Key Players of Canoo: Debra von Storch Key Players of Canoo: Your Privacy Choices Key Players of Canoo: COOKIE & PRIVACY SETTINGS Key Players of Canoo: Investor, Executive Chairman & Chief Executive Officer Key Players of Canoo: Tony Aquila is an American businessman, investor, serial entrepreneur, and inventor associated with 100+ patents in the automotive, aeronautics and cybersecurity sectors. Key Players of Canoo: Growing up on the fringes of Silicon Valley with a mathematical and entrepreneurial mind, Tony founded in his garage, grew, and sold several technology start-ups during the dot-com years, ultimately founding Solera in 2005. Solera is an automotive technology company, that Tony founded with GTCR as his capital partner. Under his leadership as Founder, Chairman and CEO, the company went public through a \$1 billion initial public offering in 2007 and private again in 2016, at a valuation of \$6.5 billion. Significantly growing the total addressable market by executing over 50 acquisitions during his tenure, it employed 7,000 people in more than 90 countries. Key Players of Canoo: In 2019, based on his proven track record of 70+ transactions with \$15bn+ in aggregate value and an industry leading

return profile, Tony founded AFV Partners LLC, a long-term sustainable capital vehicle that invests globally in assets that contribute to a net positive impact on the environment. Key Players of Canoo: Canoo is currently one of AFVs significant investments. Tony initially agreed to provide rescue capital to the company in July 2020. This was followed by his participation in the PIPE. His investments in Canoo were based on his assessment of the companys competitive advantage: its industry unique focus on proprietary engineering and technology. In preparations for the SPAC merger, Tony was asked to join the board and, effective with the completion of the merger and de-SPAC with Hennessy Capital Acquisition Corp. IV in December 2020, became its Chairman. In April 2021, in the midst of maturing pains as a public company and the increased market scrutiny of SPAC businesses, particularly in the EV space, Tony accepted the CEO position, based on his deep belief in the design and engineering team, to accelerate the transformation of the business to set it apart from the herd. Since that time, Canoo expanded the executive team, announced three new vehicle trims, a Phase 1 advanced industrialization facility and established a landmark partnership for a Phase 2 owned mega-micro manufacturing facility on tribal land in Pryor, Oklahoma. Under Tonys leadership the business grew to more than 700 engineers across five locations. He and his team are committed to their mission to bring EVs to everyone. Key Players of Canoo: As part of the re-founding, Tony and the team have a relentless and uncompromising approach to innovation and are set to bring sustainable and purpose driven EVs to the hard-working people of the heartlands and beyond. He has a disciplined approach to thinking differently and hes deeply

rooted in his reverence for nature, affordable mobility for everyone, and helping businesses and teams succeed to make a lasting difference in the world.

Key Players of Canoo: On February 22, 2022, Tony was appointed by Governor Hutchinson to the Arkansas Council on Future Mobility, which includes representatives from Walmart, J.B. Hunt, the Arkansas Trucking and Auto Dealers Associations, the University of Arkansas and Southern Arkansas University Tech, and several state agencies, among others. The Council on Future Mobility has a goal to capitalize on advancements in mobility and further cement Arkansas as a national and global leader in the sector.

Key Players of Canoo: Lead Independent Director

James joined the board on February 7, 2024. James is former Vice President of Regulatory Affairs & Deputy General Counsel at Tesla and former Vice President of Public Policy & Chief Regulatory Counsel at Rivian Automotive. Mr. Chen is currently a shareholder at the law firm of Babst, Calland, Clements and Zomnir in the firms transportation technology and energy practice.

Foster Chiang

Independent Director

Foster joined the board on December 21, 2020. He has served as a director of Canoo Inc. since December 2017. His other experience includes roles at TPK Holding Co. Ltd., TES Touch Embedded

Solutions (Xiamen) Co., Ltd., and the Board of Trustees of the Taft School, a private college-preparatory school.

Deborah Diaz

Independent Director

Deborah joined the board on February 7, 2024. Deborah previously served as former Chief Technology Officer and Deputy Chief Information Officer at National Aeronautics and Space Administration (NASA) and CIO for Science and Technology at U.S. Department of Homeland Security. Ms. Diaz currently serves on the board of directors of Archer Aviation, Primis Financial, and ZeroAvia. Ms. Diaz is also Chief Executive Officer of Catalyst ADV, a technology and strategic growth advisory firm.

Claudia Romo Edelman

Independent Director

Claudia joined the board on March 15, 2021. A diplomat, humanitarian, and marketer, she has spent 25 years creating growth and successful movements for global organizations including the World Economic Forum, UNICEF; the United Nations Commissioner for Refugees (UNHCR), and the Global Fund to fight AIDS, Tuberculosis and Malaria.

Arthur Kingsbury

Independent Director

Arthur joined the board on March 15, 2021. He has a strong track record of building shareholder value at high-growth companies and has deep experience in business, finance, and corporate governance. He has served on the boards of many public companies including Solera Holdings, Affiliated Publications, Inc., NetRatings, Inc., McCaw Cellular

Communications (acquired by AT&T), Remark Holdings, and Dolan Media.

Debra von Storch

Independent Director

Debra joined the board on January 12, 2021. She is a former Partner at Ernst & Young LLP, where she specialized in advising early-stage to rapid-growth companies. She currently serves as a director of CSW Industrials (NASDAQ: CSWI) as well as on the boards of several prominent financial and charitable organizations in the Dallas Metropolitan area and across the U.S.

Key Players of Canoo:

Tony Aquila

Investor, Executive Chairman & Chief Executive Officer

Tony Aquila is an American businessman, investor, serial entrepreneur, and inventor associated with 100+ patents in the automotive, aeronautics and cybersecurity sectors.

Growing up on the fringes of Silicon Valley with a mathematical and entrepreneurial mind, Tony founded in his garage, grew, and sold several technology start-ups during the dot-com years, ultimately founding Solera in 2005. Solera is an automotive technology company, that Tony founded with GTCR as his capital partner. Under his leadership as Founder, Chairman and CEO, the company went public through a \$1 billion initial public offering in 2007 and private again in 2016, at a valuation of \$6.5 billion. Significantly growing the total addressable market by executing over 50 acquisitions during his tenure, it employed 7,000 people in more than 90 countries.

In 2019, based on his proven track record of 70+ transactions with \$15bn+ in aggregate value and an industry leading return profile, Tony founded AFV Partners LLC, a long-term sustainable capital vehicle that invests globally in assets that contribute to a net positive impact on the environment.

Canoo is currently one of AFVs significant investments. Tony initially agreed to provide rescue capital to the company in July 2020. This was followed by his participation in the PIPE. His investments in Canoo were based on his assessment of the companys competitive

advantage: its industry unique focus on proprietary engineering and technology. In preparations for the SPAC merger, Tony was asked to join the board and, effective with the completion of the merger and de-SPAC with Hennessy Capital Acquisition Corp. IV in December 2020, became its Chairman. In April 2021, in the midst of maturing pains as a public company and the increased market scrutiny of SPAC businesses, particularly in the EV space, Tony accepted the CEO position, based on his deep belief in the design and engineering team, to accelerate the transformation of the business to set it apart from the herd. Since that time, Canoo expanded the executive team, announced three new vehicle trims, a Phase 1 advanced industrialization facility and established a landmark partnership for a Phase 2 owned mega-micro manufacturing facility on tribal land in Pryor, Oklahoma. Under Tonys leadership the business grew to more than 700 engineers across five locations. He and his team are committed to their mission to bring EVs to everyone.

As part of the re-founding, Tony and the team have a relentless and uncompromising approach to innovation and are set to bring sustainable and purpose driven EVs to the hard-working people of the heartlands and beyond. He has a disciplined approach to thinking differently and hes deeply rooted in his reverence for nature, affordable mobility for everyone, and helping businesses and teams succeed to make a lasting difference in the world.

On February 22, 2022, Tony was appointed by Governor Hutchinson to the Arkansas Council on Future Mobility, which includes representatives from Walmart, J.B. Hunt, the Arkansas Trucking and Auto Dealers Associations, the University of Arkansas and Southern

Arkansas University Tech, and several state agencies, among others. The Council on Future Mobility has a goal to capitalize on advancements in mobility and further cement Arkansas as a national and global leader in the sector.

Thomas Dattilo

Lead Independent Director

Thomas joined the board on December 21, 2020. Thomas has robust experience working with technology, finance and automotive companies, including Portfolio Group, L3 Harris Technologies, Inc., Haworth Inc., and Cooper Tire & Rubber Company.

James Chen

Independent Director

James joined the board on February 7, 2024. James is former Vice President of Regulatory Affairs & Deputy General Counsel at Tesla and former Vice President of Public Policy & Chief Regulatory Counsel at Rivian Automotive. Mr. Chen is currently a shareholder at the law firm of Babst, Calland, Clements and Zomnir in the firms transportation technology and energy practice.

Your Privacy

When you visit any website, it may store or retrieve information on your browser, mostly in the form of cookies. This information might be about you, your preferences or your device and is mostly used to make the site work as you expect it to. The information does not usually directly identify you, but it can give you a more personalized web experience. Because we respect your right to privacy, you can choose not to allow some types of cookies. Click on

the different category headings to find out more and change our default settings. However, blocking some types of cookies may impact your experience of the site and the services we are able to offer.

More information

Strictly Necessary Cookies Always Active These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the site will not then work. These cookies do not store any personally identifiable information.

Cookie Details

Performance Cookies Performance Cookies These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site. All information these cookies collect is aggregated and therefore anonymous. If you do not allow these cookies we will not know when you have visited our site, and will not be able to monitor its performance.

Canoo (GOEV) Stock Price, News & Analysis

Canoo Stocks Price, News, and Analysis: New Rank-Based
ScoringMarketRank is calculated by averaging available category
scores (with extra weight given to analysis and valuation), then ranking
the company's weighted average against that of other companies.
Canoo Stocks Price, News, and Analysis: 2.01 out of 5 stars Canoo
Stocks Price, News, and Analysis: 121st out of 162 stocks Canoo
Stocks Price, News, and Analysis: 55th out of 60 stocks Canoo Stocks
Price, News, and Analysis: Canoo has received a consensus rating of
Buy. The company's average rating score is 3.00, and is based on 4
buy ratings, no hold ratings, and no sell ratings. Canoo Stocks Price,
News, and Analysis: According to analysts' consensus price target of
\$2.33, Canoo has a forecasted upside of 1,627.3% from its current
price of \$0.13. Canoo Stocks Price, News, and Analysis: Canoo has
only been the subject of 2 research reports in the past 90 days. Canoo
Stocks Price, News, and Analysis: Canoo does not currently pay a
dividend. Canoo Stocks Price, News, and Analysis: Canoo does not
have a long track record of dividend growth. Canoo Stocks Price,
News, and Analysis: In the past three months, Canoo insiders have
sold more of their company's stock than they have bought. Specifically,
they have bought \$0.00 in company stock and sold \$1,288.00 in

company stock. Canoo Stocks Price, News, and Analysis: Only 9.70% of the stock of Canoo is held by insiders. Canoo Stocks Price, News, and Analysis: Only 36.23% of the stock of Canoo is held by institutions. Canoo Stocks Price, News, and Analysis: Earnings for Canoo are expected to grow in the coming year, from (\$0.58) to (\$0.34) per share. Canoo Stocks Price, News, and Analysis: The P/E ratio of Canoo is -0.17, which means that its earnings are negative and its P/E ratio cannot be compared to companies with positive earnings. Canoo Stocks Price, News, and Analysis: The P/E ratio of Canoo is -0.17, which means that its earnings are negative and its P/E ratio cannot be compared to companies with positive earnings. Canoo Stocks Price, News, and Analysis: Canoo has a P/B Ratio of 0.22. P/B Ratios below 1 indicate that a company could be undervalued with respect to its assets and liabilities. Canoo Stocks Price, News, and Analysis: Canoo Stocks Price, News, and Analysis: Canoo Inc., formerly Hennessy Capital Acquisition Corp. IV, is an American electric vehicle (EV) manufacturer headquartered in Torrance, California. The company was founded in 2017 by a group of former BMW and Deutsche Bank executives who aimed to create a new EV company. Canoo Inc.'s unique selling point is its flexible skateboard platform, which can be used for various vehicle types, including sedans, delivery vans, and mobile food trucks. The company strongly focuses on sustainable mobility and aims to provide affordable, accessible, and environmentally-friendly transportation options. Canoo Stocks Price, News, and Analysis: Canoo Inc.'s management team is led by Chief Executive Officer Tony Aquila, a technology industry veteran who previously served as CEO of Solera Holdings, a software and data

provider for the insurance industry. Other key team members include Soheli Merchant, who previously worked for Tesla and Ford.

Canoo Stocks Price, News, and Analysis:

Canoo Inc. is a relatively new company and has yet to generate significant revenue. The company has been reporting losses yearly since its inception in 2020. Canoo Inc. raised \$300 million in its initial public offering (IPO) in December 2020; however, since then, Canoo Inc. has utilized all of its IPO monies and an additional \$470 million in negative cash flow. Canoo Inc.'s valuation metrics are difficult to compare to industry peers due to the company's early stage of development and lack of revenue. The company's market capitalization is approximately \$250 million. Canoo Inc.'s stock price has fluctuated significantly since its IPO, reaching a high of \$20.28 in February 2021 before falling to a low of \$0.54. The stock price has remained volatile. Canoo Inc.'s stock performance has been mixed since the company went public in December 2020. The stock price initially surged on news of the company's merger with Hennessy Capital Acquisition Corp. IV, reaching a high of \$20.28 in February 2021. However, the stock price declined sharply in the following months, falling to a low of \$0.54 in Q1 2023.

Canoo Stocks Price, News, and Analysis:

Canoo Inc. operates in the highly competitive EV industry, which is rapidly evolving and subject to various regulatory and political pressures. The global EV market is expected to grow significantly in the coming years, driven by government incentives and a growing awareness of the environmental benefits of EVs. However, the industry is also subject to significant challenges, including the high cost of EV batteries and the need for charging infrastructure in many parts of the world. Canoo Inc.'s flexible skateboard platform and focus

on affordable EVs could give it a competitive edge in this crowded market. Canoo Stocks Price, News, and Analysis: Canoo Inc. has several potential growth opportunities, including launching its first EV models and expanding its skateboard platform into new markets. The company has also announced plans to develop a subscription-based business model for its EVs. This could appeal to consumers who want the flexibility to switch vehicles without committing to a long-term purchase or lease. Additionally, Canoo Inc. has partnered with Hyundai Motor Group to co-develop EV platforms and technologies, which could provide the company with access to additional resources and expertise. Canoo Stocks Price, News, and Analysis: As with any company operating in a rapidly-evolving industry, Canoo Inc. faces various potential risks and challenges. One major challenge is the high cost of EV batteries, making it difficult for companies to achieve profitability. Canoo Inc. must manage its production costs carefully to remain competitive. Additionally, the company may face regulatory or political pressures, particularly in the United States, where the government has recently announced plans to increase funding for EVs and charging infrastructure. Canoo Inc. may face stiff competition from other established and emerging players in the EV market, including Tesla, General Motors, and Rivian. requirement. Electricity used to charge vehicles will increasingly come from renewable sources to ensure carbon dioxide-neutral mobility.

Market Trends: Autonomous- The development of vehicles which require no human intervention will reduce the use of public mobility platforms and offer individual mobility to new user groups.

Market Trends: Shared Professionally managed fleets of shared vehicles will reduce the cost of mobility by a significant amount through more efficient use of expensive mobile assets.

Market Trends: Connected This applies in two ways: communication between cars or with traffic management infrastructure or between vehicle occupants and the outside world. The car of the future will become a third place between home and workplace, combining features of both.

Market Trends: Yearly updated The range of models will be updated annually to integrate the latest hardware and software developments, and react to changing requirements of shared fleet buyers.

Market Trends: The percentage of shared and autonomous mobility in overall road track will rise significantly.

Market Trends: Our forecasts suggest that by 2030, more than one in three kilometres driven could already involve sharing concepts. At the same time, user preferences will move more towards autonomous mobility. We calculate, based on mileage, that by 2030, the share of autonomous driving in overall traffic may rise to as much as 40%. Developments in Europe and the US are expected to happen at a roughly parallel pace. In China, by contrast, the proliferation of shared and autonomous mobility could happen faster than in the Western world. This would make China the leading market for the transformation of the automotive industry.

Market Trends: The comprehensive and rapid reorganisation of the automotive sector after

2025 will have far-reaching consequences for the entire industry and its value chains. Elementary structures and attitudes will have to change fast in order to cope with the developments by 2030 and beyond. Market Trends: If they want to remain successful, both manufacturers and suppliers will have to offer user-oriented innovations. All these trends are likely to become increasingly apparent between 2020 and 2025 which means that these are decisive years for manufacturers and their suppliers. Market Trends: The future will be rocky for auto companies unable to improve returns on capital. Market Trends: The current wave of auto innovation has emerged with remarkable speed: new safety features, connectivity gadgets, and real progress toward bringing autonomous... Market Trends:

Market Trends: These cookies are necessary for the website to operate. Our website cannot function without these cookies and they can only be disabled by changing your browser preferences. Market Trends: These cookies allow us to measure and report on website activity by tracking page visits, visitor locations and how visitors move around the site. The information collected does not directly identify

visitors. We drop these cookies to help us analyse the data. Market Trends: These cookies help us to understand how effective our marketing campaigns are, and enhance your online experiences with PwC with customisation. Market Trends: Marketing cookies help us provide you with personalised and relevant services or advertising, and track the effectiveness of our digital marketing activities. Social media cookies are set by a range of social media services that we have added to the site to enable you to share our content with your friends and networks. They are capable of tracking your browser across other sites and building up a profile of your interests. This may impact the content and messages you see on other websites you visit. If you do not allow these cookies you may not be able to use or see these sharing tools. Market Trends: Market Trends: Mobility behaviour of users through social personas and how they could influence traffic demand; Market Trends: External factors that will influence mobility habits, vehicle mileage and frequency of usage; Market Trends: Predictions of car inventory, replacement cycles and new sales; and Market Trends: Implications for manufacturers, suppliers, service providers and their business models.
